

COMPANY HISTORY

Laboquip was created in 2002 with 40 years of industry knowledge & expertise. With that knowledge we have developed a national business that supplies some of South Africa's largest multinationals, universities, Technikon, research institutions, schools & manufacturing industry.

We supply equipment, chemicals, glassware, consumables & hardware to effectively perform quality tests on their products. Our products meet international ASTM & DIN standards, as well as global European standards.

WHAT WE DO

We import and distribute laboratory equipment, glassware, chemicals, plastic ware and consumables to manufacturing and research institutions and schools. Laboquip supplies the food, water, paper, sugar, biotechnology, petroleum and chemical industries with products to effectively perform quality tests.

OUR VALUES

Delight the customer

This is the main driver of our business

Innovation

Central to the success of our business

Our people are our strength

Only by employing the best, will we become a great company

Strategic Alliances & Partners

Only through mutually beneficial relationships, with customers and suppliers and team members, will Laboquip develop to its full potential

A Learning Organisation

Create an environment for individual & organisational learning

Performance

Culture To be the best!
